-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claims 1-8 and 29-31 are pending in the case. Receipt of the amendment canceling claims 9-28 and 32-34 on 7/12/04, along with arguments, is acknowledged.

Claim Rejections - 35 USC § 112

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 29-31 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

This rejection is maintained essentially for the reasons set forth in the previous Office action..

Applicants have argued in their response filed 7/12/04, that the rejection should be withdrawn since they "are drawn to use of the molecule in DNA vaccination, and not to the unpredictable gene therapy techniques cited by the Examiner" and that "the disclosure provided by the specification and the prior art are sufficient to allow one skilled in the art to practice the invention as set forth in the amended claims without undue experimentation" (page 6 of the amendment). However, this argument has not been found convincing, since the use of the claimed DNA in "DNA vaccination" still requires the transfer, expression and maintenance of the DNA in vivo, thereby meeting

the definition of a formulation used in gene therapy. The same factors as set forth in the previous Office action, i.e. unpredictability in the art, lack of guidance in the prior art or in the specification, quantity of experimentation needed to carry out the invention as claimed, apply to the claims as currently present in the case. Therefore, the rejection is maintained.

Conclusion

Claims 1-8 are allowed. Claims 29-31 are rejected.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
